

## **PRETTY YOUNG**

All the pretty young  
Gather round this bar  
In search of something  
That's gone way too far  
Forget it you're tripping  
Bottoms up again  
The faces are blending  
Bottoms up again  
The party is bangin'  
Bottoms up again  
You know it's a shame when  
Bottoms up again

Come in one by one  
Let's put those hands up  
Race the night to the morning sun  
Come in one by one  
Let's put those hands up  
Race the night to the morning sun

My senses are gone  
bottles light my way  
There's only one safe haven here  
In the back of this dirty place  
Forget it you're tripping  
Bottoms up again  
The faces are blending  
Bottoms up again  
The party is bangin'  
Bottoms up again  
You know it's a shame when  
Bottoms up again

Come in one by one  
Let's put those hands up  
Race the night to the morning sun  
Come in one by one  
Let's put those hands up  
Race the night to the morning sun

Come in one by one  
Let's put those hands up  
Race the night to the morning sun  
Come in one by one  
Let's put those hands up  
Race the night to the morning sun

## **HATE WIDE OPEN**

Who, who's better than you  
For all I wanted was the thrill  
And chase the chase was thrill  
For all I could tell you were the kill

Tell me what ya gonna do  
When I come for you  
Tell me what ya gonna say  
When you fade away  
Tell me what ya gonna do  
When I come for you  
Lost inside your head

Back against the wall  
Take a chance take the time never ever fall

Take it to the line you know I been lying  
Telling the truth was never a drive in

Worried eyes begin to swell  
I can tell I can tell it's really really hell

Take it to the line you know I been lying  
Telling the truth was never a drive in

Wish I'd sold the moon and stars  
But I will never get that far

Crushed, by the weight  
The heaviness explodes from the heat  
Well then dress, dress the part  
And know that I'm watching you from the park

Tell me what ya gonna do  
When I come for you  
Tell me what ya gonna say  
When you fade away  
Tell me what ya gonna do  
When I come for you  
Lost inside your head

Back against the wall  
Take a chance take the time never ever fall

Take it to the line you know I been lying  
Telling the truth was never a drive in

Worried eyes begin to swell  
I can tell I can tell it's really really hell  
Take it to the line you know I been lying  
Telling the truth was never a drive in

Wish I'd sold the moon and stars  
But I will never get that far

YEAH

Take your chance and fall  
Never ever ever fall  
Take your chance and fall  
Never  
Hate, Wide, Open

## **FREE FALL**

Just the sight of this will bring you down  
Just the thought of this meet the ground upside down

Left by my own device  
Free Fall  
Torn by broad divide  
Free Fall  
Last in the world am I  
Free Fall

Just decided that this can't be real maybe surreal  
Had enough of that, you will reveal eye for an eye

Left by my own device  
Free Fall  
Torn by broad divide  
Free Fall  
Last in the world am I  
Free Fall  
Free Fall

Left by my own device  
Free Fall  
Torn by broad divide  
Free Fall  
Last in the world am I  
Free Fall  
Free Fall

## MISTAKE

All this talking back and forth  
Have no reason rhyme or way  
All the while I'm in denial  
How can I live with this everyday

Answers please answers please  
I don't want excuses or your tease  
Bend myself until I break  
This time around there will be no mistake

Know I been making them since you've gone away  
Crazy the way I been feeling since the day you came back home  
Brazen like the Wolf who cut my good hand off  
Dazed and confused by the way you've been playing with my brain

From the ashes rise the Phoenix  
That's the dream I'll never see  
As you push me down with the heel of your  
Soul your soul is black.  
You can try to hide behind your mask  
I'll be reachin' out to pull those strings  
This time around there'll be no mistake

Know I been making them since you've gone away  
Crazy the way I been feeling since the day you came back home  
Brazen like the Wolf who cut my good hand off  
Dazed and confused by the way you've been playing with my brain

Mistake  
Know I been making them since you've gone away  
Crazy the way I been feeling since the day you came

Mistake  
Know I been making them since you've gone away  
Crazy the way I been feeling since the day you came

Mistake  
Know I been making them  
Mistake  
Know I been making them  
Mistake  
Know I been making them

## **PILL**

Congregation reformation  
Matters rest in my hands  
The collective resurrected  
You took my best chance  
I say Naysayers are betraying  
Cannot speak the broken tongue  
Laughing stock amongst the sick  
I can tell you it's begun

Say what you will, then swallow the pill  
I could  
Never find the crime never do the time  
I'll be bringing you down  
Do what you will, then go for the kill  
I would  
Try to hide the crime never do the time  
I'll be bringing you

DOWN, DOWN

Ask enough and you'll receive  
Constitution has deceived  
Disillusioned and dissected  
Politicians have rejected  
I say broken wing cannot be mended  
Go ahead and save yourself  
Poorest of the highest class  
Excuse me if I kick your ass

I do not fear you  
I'm not dear to you  
Bow your head

My Decision  
Bow Your Head  
Beg For Mercy  
Tunnel Vision

Say what you will, then swallow the pill  
I could  
Never find the crime never do the time  
I'll be bringing you down  
Do what you will, then go for the kill  
I would  
Try to hide the crime never do the time  
I'll be bringing you ....DOWN

## **THE WHIP**

I can feel this  
It's deep inside  
You got the wrong way  
And I make it right  
Can't justify the greed  
Can't justify the need  
And I seal it with my kiss  
And I steal it when I deal it

It comes but once every hundred years  
The peddlers and the pushers need have no fear  
They ridicule the poor and stick to the rich  
It's just another ride on the tail of the whip

All you Caesars  
Parade in vain  
Hear the trumpets blaring  
And I can feel your pain  
Leave it to the masses  
To justify the crush  
And I seal it with my kiss  
And I steal it when I deal it

It comes but once every hundred years  
The peddlers and the pushers need have no fear  
They ridicule the poor and stick to the rich  
It's just another ride on the tail of the whip

Mesmerized  
No circus fire  
I'll be acting  
Lost  
Blame on you

And I'll electrify you  
And I will petrify you  
And I will detrify you  
And I will mesmerize you  
And You will make my words  
And You will take my words  
And You will die by my words

It comes but once every hundred years  
The peddlers and the pushers need have no fear  
They ridicule the poor and stick to the rich  
It's just another ride on the tail  
Just another ride on the tail

Just another ride on the tail  
Just another ride on the tail  
of the whip

## AWAKEN

In my hands, all the tears I've gathered through the years  
These pools I swim in are filled with, god, man, pain, love, and hate  
I've been where no other man has dared to rage  
So I'm waiting on St. Peter's gaze

Why do you fight

I will awaken  
I am ready  
I will awaken  
I am ready to live

Hand to hand, passes news, of better days  
Simple mind says, never change through the time of man kind  
Look at fear, and smile back, at the mirror face  
So I'm waiting on St. Peter's gaze

Why do you fight

I will awaken  
I am ready  
I will awaken  
I am ready to live

I will awaken  
I am ready  
I will awaken  
I am ready to live

## **BLEEDING LIME**

Heading Downtown  
To make the rounds  
With the ass clowns  
Then hit the top  
Best of the crop  
No I never stop

Bring me down  
You know I'm feelin' right  
Hit the town  
I'm drinkin' shots tonight  
Lookin' around  
It's time to pick a fight  
Slam this drink down  
I'm bustin' heads tonight

Pick your head up off the ground  
Lose your head, lose your mind  
Soco red, Bleeding lime  
Lose your head, lose your mind  
Soco red, Bleeding lime  
Pick your head up off the ground

Just need a minute  
So I fit it  
To be clean  
Unlock the mind  
You then rewind it  
To the scene

Crash this place  
I feel it come again  
Anger unlaced  
It's just another face  
darkness unfolds  
Will I catch a break  
Shits so old  
I'll never break away

Pick your head up off the ground  
Lose your head, lose your mind  
Soco red, Bleeding lime  
Lose your head, lose your mind  
Soco red, Bleeding lime  
Pick your head up off the ground

State your business, state your name  
I ask of you what you bring to this game

You beg for mercy I give black and blue  
You hide your face I'll rearrange it for you

Pick your head up off the ground  
Lose your head, lose your mind  
Soco red, Bleeding lime  
Lose your head, lose your mind  
Soco red, Bleeding lime

Pick your head up off the ground  
Lose your head, lose your mind  
Soco red, Bleeding lime  
Lose your head, lose your mind  
Soco red, Bleeding lime  
Pick your head up off the ground

## **DEAD BEFORE DAWN**

I've been left alone  
In this world so cold  
The walls are closing in  
On my last breath  
I've gone pissed myself  
Waiting for my medicine  
Please bring the medicine  
All the time you had  
You could have changed my life  
But all the while you couldn't  
Take the time for yourself

Dead, before dawn

Forty Days  
Forty Nights  
Forty ways you could have changed my life  
All the pain  
All the pride  
All the rain could never clean me dry

The senseless atrophy  
Leaves me blistered red  
The constant bickering  
Can take your breath away  
Won't wish upon it  
Stars all fade away  
It's just another day  
The world keeps marchin' on  
It is best you know  
My brothers bring the drums  
Can you play them for yourself

Dead, before dawn

Forty Days  
Forty Nights  
Forty ways you could have changed my life  
All the pain  
All the pride  
All the rain could never clean me dry

I just need a little time, just a little time  
DIE

Clear your mind, take that  
Right out, right out, right out

## **FLY**

Silence, brings patience

Legion of war come down here  
To remind me of what I fear  
Running to rest, eyes of night  
Seek the many to end the fight

Turn my eyes out  
I will savor  
Catch my breath when

Teach me how to fly high  
Higher than the sun  
Where only angels run  
I'm gonna get so high  
Teach me how to fly

Silence, brings patience

Coming to age, the raging beast  
Set him free to end your grief  
Looking the best and never success  
Let the timeless break the chest

Turn my eyes out  
I will savor  
Catch my breath when

Teach me how to fly high  
Higher than the sun  
Where only angels run  
I'm gonna get so high  
Teach me how to fly

Teach me how to fly high  
Higher than the sun  
Where only angels run  
I'm gonna get so high  
Teach me how to fly

## NEVERLAND

In the season of the lonely  
I can feel your tears  
As there falling empty kisses  
Never reach my lips

And the wind swam by  
In the dust lies the answers  
And the sands of time  
Never last forever

When you're young they take you by the hand  
And lead you off to never never land

When the passion and the fiction  
and the nights are one  
The connection can be hazardous  
to the lonely one

And the wind swam by  
In the dust lies the answers  
And the sands of time  
Never last forever

When you're young they take you by the hand  
And lead you off to never never land  
When you're young they take you by the hand  
And lead you off to never never land

When you're young they take you by the hand  
And lead you off to never never land  
When you're young they take you by the hand  
And lead you off to never never land

## **MOVE**

This is the revolution  
Lay it out to pasteurize  
Plant the seeds of anarchy  
Let it grow inside your mind

I raise my head up to the sky

This is my vision  
I will live my vision  
I will revive  
Move it up, move it up, move it up

Praises to the loaded gun  
Stand before the fire sun  
Take it to the maximum  
Last in line will become

I raise my head up to the sky  
Now move, move

This is my vision  
I will live my vision  
I will revive  
Move it up, move it up, move it up

So lock it up  
So lock it up  
So lock it up

Cut your teeth from the streets  
Now move it up

Move

This is my vision  
I will live my vision  
I will revive  
Move it up, move it up, move it up

So lock it up  
So lock it up  
So lock it up

(boom)
